

Education

The Bath House Children's Community Centre

76 Shacklewell Lane,
Hackney, E8

Conceived as a way to enhance the wellbeing of children and staff, this project creates a large open plan multi-purpose space with a central tree-like form, providing areas for quiet play, reading, sleeping, adventure and creativity.

Built

Completion: September 2015

Client: Margaret Norwood

Architect: Lipton Plant Architects

Education

Channing School

The Bank, Highgate,
Camden, N6

Extending the school's estate with three new buildings to create a new 'village green' at its heart, the additions seek to respect and reflect the adjacent listed buildings on campus.

Built

Completion: September 2015

Client: Channing School

Education

Employment Academy

29 Peckham Road,
Southwark, SE5

Offering skills training and support services for long-term workless people, the project includes the refurbishment and extension of the Arts & Craft Poor Law Guardian's building and creates a social courtyard at its heart.

Built

Completion: August 2015

Client: Thames Reach

Architect: Peter Barber Architects

M&E and Sustainability Engineer: Ramboll

Education

Lyndhurst Primary School

Grove Lane, Southwark, SE5

Expanding the existing buildings to meet educational needs and modernise facilities, the scheme provides a modern interpretation of the surrounding brick context, with playful elevations resulting from the natural ventilation of each classroom.

Built

Completion: August 2015

Client: LB Southwark and 4Futures

Architect: Cottrell and Vermeulen Architecture

Education

Mayfield School

6 Pedley Road, Dagenham,
Barking & Dagenham, RM8

Providing affordable and urgently needed school places, the scheme provides flexible teaching spaces, along with sports and dance studios, all built to a reduced EFA budget using digital design and off-site construction.

Built

Completion: March 2015

Client: LB Redbridge

Architect: David Miller Architects

Education

New Studios, Wimbledon College of Arts

Merton Hall Road,
Wimbledon, Merton, SW19

Achieving the second highest BREEAM score in the world in design stage assessment, this zinc-clad flexible enclosure provides high-quality spaces with natural light and ventilation, linked to existing studios via a canopy structure with semi-outdoor storage.

Built

Completion: January 2016

Client and Project Manager: University of the Arts
London

Architect: Penoyre & Prasad

Education

Newington Green Primary School

Mathias Road, Islington, N16

Refurbishing and rationalising the teaching spaces of a 1950's school with a new technologically-friendly teaching wing, this scheme has created new facilities including physical education and arts spaces, and improved thermal performance throughout.

Built

Completion: March 2015

Client: LB Islington and Newington Green Primary School

Architect: Paul Murphy Architects

M&E Engineer: Ramboll

Education

RCA Battersea

1 Hester Road,
Wandsworth, SW11

Inspired by Andy Warhol's Factory, the project opens up 7,300 sqm of new space for workshops, individual studios and a 250-seat lecture theatre across three buildings, aiming to create a 'horizontal drift' between disciplines.

Built

Completion: April 2015

Client: The Royal College of Art

Architect: Haworth Tompkins

Project Manager / Cost Consultant: AECOM
