

The temporary

Camden Collective

110 Hampstead Road,
Camden, NW1

Providing free hot-desking space, subsidised offices and training academies in a vacant hospital wing awaiting redevelopment as part of the wider regeneration of the area.

Built

Completed: January 2016

Active period: 2015-2016, with potential extension

Client: CTU Community Project and High Speed 2 Ltd.

Architect: Co-DB & RARA

Masterplan Consultant: Sheppard Robson Architects

The temporary

Frost Flowers

River Thames, Lambeth & Southwark

Proposing to create a number of temporary floating ice rinks on the River Thames using simple fan-like mechanism that, once unfurled, would encourage the river to naturally freeze in winter.

Unbuilt

Status: Design stage

Architect: NBBJ

The temporary

Peckham Levels

95A Rye Lane, Southwark,
SE15

Transforming a multi-storey car park into a creative workspace, this scheme would include studios, shared workshops, co-working offices, music rehearsal suites and event spaces.

Unbuilt

Status: Design stage

Completion: October 2016

Active period: 2016-2021

Client: LB Southwark

Architect: Carl Turner Architects

The temporary

PLACE/Ladywell

261 Lewisham High Street,
Lewisham, SE13

Providing 24 homes for local families in need, the scheme uses a volumetric construction method to create high quality temporary accommodation that has a design life of 60 years and is re-deployable up to five times.

Unbuilt

Status: Under construction

Completion: June 2016

Active period: 2016-2021

Client, Planning Consultant and Project Manager /

Cost Consultant: LB Lewisham

Architect: Rogers Stirk Harbour + Partners

Structural Engineer: AECOM

The temporary

Platform, Southwark

1 Joan Street, Southwark,
SE1

Transforming a derelict office building into a new multi-discipline temporary project space, this project allows artists and local groups to work, rehearse, and collaborate, alongside exhibitions and monthly films club.

Built

Completion: January 2016

Active period: January 2016 - July 2017

Client: Platform

Developer: U+I

Delivery Partner: Transport for London and LB Southwark

Architect: Alan Pipe & Partners

The temporary

Sculpture in the City 2015

The City of London, EC2
and EC3

Enhancing the public realm with a series of temporary sculptures in the heart of the City of London to promote interaction with public art, alongside an education programme.

Built

Completion: June 2015

Active period: June 2015- May 2016

Client and Project Co-ordination: City of London Corporation

The temporary

Skip Garden

Tapper Walk, King's Cross,
Camden, NIC

Design to be easily relocated, this project creates an urban oasis for the community with a grey-water recycling, kinetic rain shelter, evaporation cool store, twilight gardening space, chicken coop, and a rammed-earth dining space.

Built

Completion: September 2015

Client: Global Generation and Bartlett School of Architecture

Developer: King's Cross Central Limited Partnership

Architect: Jan Kattein Architects, Julia King, Özkurt & Eland and Bartlett School of Architecture

Engineer: Arup, Expedition and Structure Mode
