

Wellbeing

Camden Active Spaces

Camden, WC1, NW3 & NW5

Working with seven schools, this project seeks to address childhood obesity rates by creating physically challenging and imaginatively stimulating play spaces for children and the local community.

Built

Completion: 2015

Client: LB Camden

Landscape Architect: Erect Architecture, LUC, Wayward

Wellbeing

Campshill Road

Lewisham, SE13

Targeting BREEAM Excellent, this intergenerational living scheme seeks to promote community integration through the creation of a shared access 'mews', extra-care apartments and communal space shared by the wider community.

Unbuilt

Status: Planning granted

Completion: Spring 2017

Client: LB Lewisham

Architect, M&E / Sustainability Engineer and Planning Consultant: PRP

Wellbeing

Holmes Road Gardens

41-43 Holmes Road,
Camden, NW4

Providing high quality homes for 59 people, this alms-house inspired homeless facility includes counselling spaces, education and training facilities, all based around a courtyard garden.

Unbuilt

Status: Under construction

Completion: Summer 2016

Client: Genesis Housing Association

Developer: LB Camden

Architect: Peter Barber Architects

Contractor: Willmott Dixon

Wellbeing

The London Centre for Children with Cerebral Palsy

Coppetts Road, Haringey, N10

Seeking to help children develop with a series of sense-stimulating environments through sounds, smells, light and varying surfaces, this building includes a 'treetop' walkway enclosed by a timber screen which becomes a giant xylophone to play with.

Unbuilt

Status: Planning granted

Completion: July 2017

Client: London Centre for Children with Cerebral Palsy

Architect: pH+ Architects

Wellbeing

Maurice Wohl Clinical Neuroscience Institute

5 Cutcombe Road,
Denmark Hill, Lambeth,
SE5

One of Europe's largest centres for interdisciplinary neuroscience research, this highly sustainable institute is part of the King's College Campus, and provides research laboratories, seminar spaces and flexible accommodation.

Unbuilt

Completion: 2015

Client: King's College London
