Integration of Healthcare Estates in their surrounding context

WARNEFORD HOSPITAL, Oxford
Main frontage (English Heritage NMR, 1901)  (English Heritage NMR, 1909)
Site = 8.7 ha
Existing build area = 20,000 Sq. m
Potential development = 42,000 Sq. m
1- Hospital building as the identity of the site: Emphasize its position within the site to create a hub

2- Green corridors: connecting surrounding green Spaces and providing a natural setting.

3- Street structure: the street structure organizes the site in different plot sizes suitable for different building types and uses.
